

Soler GRC Group, LLC

Risk Managed. Trust Earned.

CORE COMPETENCIES

- CMMC Level 1–2 readiness assessment and remediation
- NIST 800-171 gap analysis, SSP, and POA&M development
- SOC 2 audit readiness for commercial and enterprise clients
- FedRAMP advisory for cloud service providers
- Fractional / virtual CISO risk oversight
- Third-party audit preparation (SOC 2, ISO 27001)

COMPANY DATA

UEI

[Insert after SAM.gov registration]

CAGE Code

[Insert after SAM.gov registration]

NAICS Codes

541512 · 541519 · 541611

(confirm final codes in SAM.gov)

Business Type

Small Business — Virginia LLC

(confirm SBA socioeconomic status if applicable)

DIFFERENTIATORS

- Evidence-first methodology — every recommendation ties to what an assessor will actually request.
- Structured Readiness Sprint model (Starter / Pro / Elite) scales support to team size and timeline.
- Serves both government contractors (CMMC / NIST / FedRAMP) and mid-to-large enterprises (SOC 2 / vendor risk).
- Plain-language reporting written for decision-makers, not just security staff.

PAST PERFORMANCE

[Add project name / client type, contract value or scope, period of performance, and a one-line outcome once available. Two to three entries is standard for a one-page capability statement.]
